Formator d.o.o. develops and manufactures high-quality safety glass products for architectural and marine applications, with a constant focus on improving performance, environmental protection and energy efficiency.

Our Integrated Management System is built on the principles of responsibility, transparency and continual improvement.
Within this framework, we are committed to the following:

Customer Focus – to understand customer needs and expectations, ensure full compliance with contractual requirements, and continually enhance strategic partnerships through consistent product quality.

Compliance – to fulfil all applicable legal and other binding obligations related to quality, environment and energy.

Environmental Protection – to prevent pollution, reduce emissions, manage waste responsibly and use resources efficiently, taking into account the life cycle perspective of our products and processes where applicable.

Efficiency and Digitalization – to use data-driven management and digital tools to optimize processes, monitor results and support fact-based decision-making.

Energy Responsibility – to measure, analyze and reduce energy consumption while increasing the share of renewable sources and energy-efficient technologies. We apply energy efficiency criteria when procuring products, equipment and services, and integrate energy performance requirements into the design and modification of our plants and processes.

Employee Development – to continuously enhance the knowledge, skills and awareness of employees regarding quality, environment and energy, and to encourage their engagement and accountability for results.

Continued Improvement – to identify risks and opportunities and take actions that enhance the effectiveness of the Integrated Management System, including the ongoing improvement of the Energy Management System (EnMS) and energy performance.

This Policy provides the framework for setting and reviewing quality, environmental and energy objectives and serves as the foundation for the company's strategic direction and development.
Management ensures the availability of all necessary resources, competence and support for its implementation and regularly reviews its suitability and effectiveness.

The Policy is documented, communicated to all employees, made available to interested parties and represents a commitment shared by every member of the organization.
